

For Immediate Release

**Solution Beacon's John Stouffer to lead an Oracle Applications R11i
Installation and Upgrade DBA Workshop at Independent Oracle Applications
Users Group's Fall Conference in San Diego**

San Diego - July 31, 2001 - Mr. Stouffer will be the Lead Instructor for a two day, Oracle Applications R11i DBA Workshop with emphasis on installation, upgrade, maintenance, patching, concurrent managers and cloning. The first day of the workshop (September 21, 2001) will be lecture sessions in a large conference room while the second day is reserved for hands-on, campground sessions with limited access. Registration will be required for the hands-on sessions.

Solution Beacon is partnering with OAUG to present this workshop to bring high levels of functional and technical skills as well as the best in software and hardware.

When: Friday and Saturday, September 21-22, 2001
Where: OAUG Fall 2001 Conference
San Diego Convention Center
San Diego, California

John Stouffer has over 10 years experience as an Oracle Applications DBA. He has taught numerous training sessions, workshops, and lecture instruction in addition to OAUG Whitepaper presentations and panel discussions relating directly to Applications Database Administration and Application Upgrades. He taught the first ever Release 11 Installation and Administration classes for Oracle Corporation. See <http://www.solutionbeacon.com> for more information.

Oracle Applications Users Group (OAUG) was formed as a non-profit user association in the San Francisco Bay Area in May 1990, when 32 Oracle Applications users gathered to create an independent forum for the exchange and expression of information concerning the effectiveness of Oracle Applications.

Today, OAUG has 2,200 corporate members who represent tens of thousands of individual users worldwide, including representatives from more than 25 of the Fortune 100 companies, and represents diverse backgrounds, industries and geographic locations.

Members include end users, service providers, hardware vendors, and third-party software solution providers, and represent over 70 affiliated geographic and special interest groups from around the world.

For more information on the OAUG, visit their Web site at <http://www.oaug.org/>.
