

For Immediate Release

Solution Beacon, LLC To Provide R11i Workshops at OAUG Fall 2002 San Diego Conference

SAN DIEGO--Oct. 23, 2002--Solution Beacon, LLC has announced that it is providing a series of Oracle Applications Release 11i Workshops on Implementations and Upgrades.

These sessions will include technical workshops on administration, maintenance, and performance tuning as well as functional workshops on iProcurement, new functionality in R11i and functional upgrade issues. The workshops will be given at the Independent Oracle Applications Users Group's Fall Conference in San Diego.

As an official OAUG Training Provider, Solution Beacon is joining OAUG and once again sponsoring the highly acclaimed Oracle Applications Release 11i Workshops at the San Diego Fall OAUG on October 28-29, 2002. The focus of the Workshops is to share "real-world" experience as well as tips and techniques to manage the complex Oracle Application environment delivered with Release 11i. These unique, two-day Workshops are FREE to OAUG attendees.

Solution Beacon is a leading provider of expert Oracle Applications resources to government, education and Fortune 1000 companies. Their expertise is comprised of well-balanced industry-wide experience covering government, higher education, manufacturing, distribution, telecommunications, health care and e-Business. John Stouffer of Solution Beacon is the lead instructor for the Workshops. John has over 10 years experience as an Oracle Applications DBA and has done multiple Release 11i implementations and upgrades in very complex, high profile environments. He has taught numerous training sessions and workshops in additions to OAUG white paper presentations and panel discussions related to Applications Database Administration and Upgrades. Randy Giefer of Solution Beacon leads the Performance Tuning portion of the R11i workshops. He also has extensive experience in Oracle Applications implementations and upgrades; using that experience to also teach numerous training sessions, workshops and paper presentations at OAUG and other conferences. To provide an expanded training curriculum, Solution Beacon has enlisted the participation of some of the best industry experts available. Participants for these Workshops include experts from O2Works, BearingPoint, Orion Consulting and Outer Bay Technologies. Other instructors participating in the Workshops are Alicia Hoekstra of BearingPoint, Mark Clark of

O2Works, Sandra Vucinic of Orion Consulting, Rich Butterfield of Outer Bay Technologies, and Tammy Vandermey of Webcentrix.

For more information on Solution Beacon and the Workshops, visit their Web site at <http://www.solutionbeacon.com/>.

The Oracle Applications Users Group is the independent voice of Oracle applications users. Representing more than 2,000 member companies worldwide and more than 25 of the Fortune 100, OAUG provides users of Oracle applications with independent, marketing-free education, networking, training and support via a wide range of activities including conferences and publications. The OAUG serves as an advocate to Oracle Corp. (Nasdaq: [ORCL](#) - [News](#)) on behalf of all Oracle applications users.
